MY PRODUCTS

Lemon Meringue Cupcake

Sinking your teeth into these golden, buttery cakes with their gooey lemon centre and sticky white Italian meringue frosting is a sheer taste of heaven.

Red Velvet Cupcake

Made popular by New York's Waldorf Astoria Hotel, these cakes are five star. Simple to make yet spectacular as a centrepiece, these red velvet cakes with cream cheese icing are luxurious.

Black Forest Cupcake

Inspired by the classic Black Forest gateau, these dinky crumbly chocolate cakes are studded with sweet, sticky cherries and spiked with kirsch.

MY STORY

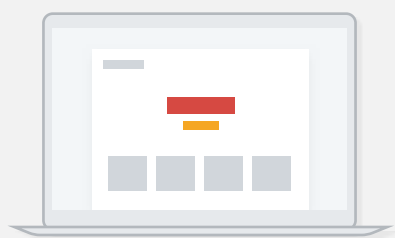

The Beginning

People have been eating cupcakes for 100 years, but it was in the 1990s when I first moved from Hongkong to Australia through the shared love of cooking with my dad that I became passionate about and interested in baking and making sweet delights like cupcakes.

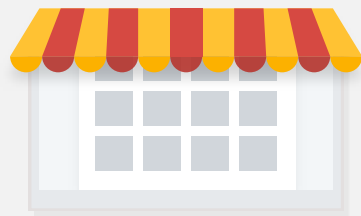

The Online Stores

I started baking cupcakes at home and it's recently that through encouragement from my friends at work that I ventured into this adventure of opening my first online presence as a cupcake connoisseur.

Wendy's Cupcakes Store

What I love about cupcakes is that they can be varied with beautiful decorations and different tastes. There isn't a right or wrong and what's most important is that they're tasty! My dream is to open my cupcake store and share my love and passion with cupcakes with people.
